Roundways Special

ROUNDWAYS THREAT AGAIN

Your Focus Team has worked hard to ensure that the Land East of Roundways is not allocated for development in the new South Glos Local Plan, which has been put forward for adoption.

We know just how valued this land is from our experiences of defending it against development when previous, now abandoned, plans attempted to build 1,800 homes there.

Therefore we're disappointed that Bloor Homes have just announced their intention to develop part of the land for 450 homes as speculative development before the new plan is adopted.

The proposals for the land extend from the railway line at the south, along the whole length of St. Anne's Drive and Roundways to join up with Woodside Road in

the north.

You can see the scope of the proposals in the diagram above.

Members of your Focus Team will continue to oppose large-scale development at Roundways.

Bloor Homes are holding a drop-in event at The Miners on 11th July between noon and 7pm.

We would encourage residents to attend that drop-in to make their views clear to Bloor Homes.
